

Le vignoble de Bordeaux

Le vignoble de Bordeaux en couleurs

Le vignoble de Bordeaux réunit une diversité unique de terroirs, zones qui englobent le terroir des terres et des hommes au bord de l'eau.

A travers ces vignes et ces terres, nous découvrons les terroirs, les paysages, les modes de production, les enjeux environnementaux, la culture, la gastronomie, etc.

Petits et grands, à vos côtés pour donner de la couleur à cette fresque!

Cette fresque propose des vignettes de A à Z et permet de découvrir les terroirs, les paysages, les modes de production, les enjeux environnementaux, la culture, la gastronomie, etc.
